| **Address:** Uttar Badda, 1212, Dhaka, Bangladesh (Home)

● ABOUT MYSELF

AI/ML Engineer building production systems with LLMs, RAG, and deep learning. Full-stack developer experienced in scalable ML applications, medical AI platforms, and research. I bring together clean software engineering and cutting-edge AI.

● WORK EXPERIENCE

01/02/2026 - CURRENT - DHAKA, BANGLADESH

AI PROJECT CO-ORDINATOR QANUN LIMITED

- Managed AI-based legal tech projects, including chatbot, OCR, and contract systems.
- Coordinated teams and ensured smooth project execution and delivery.
- Monitored AI performance, quality, and compliance with legal standards.

01/02/2025 - 31/01/2026 - DHAKA, BANGLADESH

AI/ML ENGINEER ETHICS ADVANCE INNOVATION HUB LTD.

- Applied domain-adapted LLMs with prompt engineering, document chunking, vector DBs, and RAG for a medical LMS.
- Ensured responsible AI practices, including fairness and bias mitigation.
- Deployed LLM-powered solutions into production, integrating them with web-based LMS applications for real-time use.

15/08/2024 - 15/01/2025 - DHAKA, BANGLADESH

RESEARCH ASSISTANT UNITED INTERNATIONAL UNIVERSITY

- Implemented and evaluated memory editing techniques to inject or update factual knowledge in LLMs.
- Worked on implementing techniques to merge multiple LLMs while preserving and integrating distinct factual knowledge.
- Explored reinforcement learning (RL)-based strategies to learn optimal edit locations and directions in transformer architectures, to mitigate limitations of manual and static knowledge editing methods.

● SKILLS

Languages

Java | Python | C | C++ | Solidity | TypeScript | JavaScript

Frameworks

React Native | Django | FastApi | React | NodeJs (ExpressJs)

Databases

MySQL | PostgreSQL

Technologies

● EDUCATION & TRAINING

01/01/2020 - 31/12/2024 - DHAKA, BANGLADESH
BACHELOR OF SCIENCE- UNITED INTERNATIONAL UNIVERSITY

Field(s) of study:Computer Science and Engineering | **Final grade:** 3.62 | **Level in EQF:** 6 | **Thesis:** A Secure Blockchain Based Brain Tumor Prediction By Using Swin Transformer

01/07/2017 - 30/04/2019 - BOGRA, BANGLADESH
HIGHER SECONDARY CERTIFICATE- GOVT. AZIZUL HAQUE COLLEGE, BOGRA
Level in EQF: 4

● HONOURS AND AWARDS

- 31/12/2024 United International University
Champion, Kaggle Competition
- 31/12/2024 United International University
Champion, Software Lab, CSE Project Show Fall '24
- 31/12/2012 Bangladesh Scout
Bangladesh Scouts Award

● PUBLICATIONS

IEEE Habib, M. A., Sarwar, M. W., Hasan, M., Mokaddis, M. A. (2025). A Secure Blockchain Based Brain Tumor Prediction Model Using Swin Transformers. INDUSCON 2025, IEEE. IEEE/IAS International Conference on Industry Applications (INDUSCON)
- ADDomics: Enhancing Multiomics Fusion with Autoencoders and Deep Neural Networks**
Habib, Md Ahashan, et al. "ADDomics: Enhancing Multiomics Fusion with Autoencoders and Deep Neural Networks." 2025 IEEE Region 10 Symposium (TENSYP). IEEE, 2025. IEEE Region 10 Symposium (TENSYP)
- PyroVision: A Deep Learning Based Model for Wildfire Detection in Satellite Imagery**
Sifat, Shoukat Alam, et al. "PyroVision: A Deep Learning Based Model for Wildfire Detection in Satellite Imagery." 2024 6th International Conference on Electrical Engineering and Information & Communication Technology (ICEEICT). IEEE, 2024. International Conference on Electrical Engineering and Information & Communication Technology

● LANGUAGE SKILLS

Mother tongue(s): **BENGALI**

	UNDERSTANDING		SPEAKING		WRITING
	Listening	Reading	Spoken production	Spoken interaction	
ENGLISH	A2	A2	B1	A2	B2

● PROJECTS

Bangla PDF RAG System FastAPI · RAG · React · FAISS · OCR

An intelligent system that reads Bangla PDFs and provides accurate answers by combining OCR, semantic search, and AI-powered language understanding.

Links https://github.com/mr-ahabib/RAG_API

RAG Q&A and MCQ Generator FastAPI · FAISS · RAG · React · Llama

A RAG system that answers questions, supports chat, and generates MCQs from documents, with FastAPI backend and React frontend for an interactive experience.

Links https://github.com/mr-ahabib/RAG_MCQ_QA

Book Critic App React Native · TypeScript · Express.js · Redux · Expo

Mobile app for discovering, reviewing, and discussing books with Redux state management, pagination, and reusable components.

Links https://github.com/mr-ahabib/Book_Critic

DocLink TypeScript, React Native, MySQL

Developed a medical app that allows users to manage their health records, get condition insights through symptom-based disease classification, and scan documents using OCR technology.
